

B-SMART® ENGINEERING PACKAGES

First time right project delivery

As an Original Equipment Manufacturer (OEM) you want the perfect solution for your specific application, in order to guarantee your customer the best performing technology. However, the process of designing an ultrafiltration skid can be time- and cost intensive. Our comprehensive engineering packages help simplify this process. Depending on the project,

we can customize these engineering packages to give you exactly what you want – no more and no less. Our B-SMART® Engineering Packages support you to build the ultrafiltration skid you need and enables you to have the system up and running quickly. The result? A system that performs as it should and a happy end-user.

Tell us what you need

The B-SMART® Engineering package is available in three standard variations so that you can choose the best fit for your needs.

- Light** → Basic mechanical package for experienced OEM's
- Standard** → Mechanical and functional package for OEM's
- Premium** → Mechanical and functional package including 3D design drawings

	Mechanical					Functional			Design Drawings	
Light	Customer support	P&ID + PFD	Equipment parts documents	Spare parts list	Process Description	-	-	-	-	-
Standard	Customer support	P&ID + PFD	Equipment parts documents	Spare parts list	Process Description	Control Philosophy	Program Explanation	Cause Effect Matrix	-	-
Premium	Customer support	P&ID + PFD	Equipment parts documents	Spare parts list	Process Description	Control Philosophy	Program Explanation	Cause Effect Matrix	3D (.step file, closed)	2D construction drawings

Custom Engineering

In addition to the standard engineering packages, we have the expertise to help you with customized engineering solutions as well. On request, Berghof Membrane Technology GmbH can

design, engineer or even deliver a tailor-made ultrafiltration skid to fully meet your demands.

MORE THAN JUST A MEMBRANE SUPPLIER

- 1 Software → Our specially designed software ensures reliable and energy-efficient operation of your ultrafiltration skid
- 2 B-Care® → We offer a suite of comprehensive support packages that can be customized according to your needs. From application analysis to pilot testing, engineering, on-site or remote commissioning, operator training and data monitoring - our team is at your disposal to help you manage your new and existing projects and keep them running smoothly and efficiently.
